

Certificate III in Carpentry

CPC30220 / 104864J

Carpentry is a versatile trade qualification that prepares students for a career in the construction industry. In this course you will work with trade tools and learn the skills to build, install, finish and repair structures and fixtures for domestic and commercial developments. You will learn to interpret plans, calculate pitches and slopes, and understand the safety requirements of building sites.

Our Trade Instructors have current experience in the construction industry and bring together the theory and the practical requirements of the course, to help you develop skills and gain an understanding of what is needed to succeed. Once qualified, you will be known on-site as a Carpenter or Chippy.

Qualification Overview

Certificate III in Carpentry

CPC30220 / 104864J – Duration: 104 Weeks

This is a trade qualification for carpenters in residential and commercial workplaces. It includes setting out, manufacturing, constructing, assembling, installing, and repairing products made using timber and non-timber materials. Completion of this carpentry qualification gives you the opportunity to become a recognised tradesperson.

In this course, you'll learn how to construct, install, finish and repair structures and fixtures for residential, commercial, and industrial developments. You will work with a range of tools, equipment, and materials to construct frames for walls and ceilings, construct pitched and advanced roofs and eaves, and erect and dismantle formwork for footings and slabs on the ground.

This course, delivered by our highly experienced and passionate trainers, will see you graduate with the skills that will allow you to become a qualified carpenter.

Occupational titles may include:

- Carpenter - Commercial
- Carpenter - Formwork
- Carpenter - Residential

Course Structure

The course is delivered over 2 days per week and is made up of the following 34 units:

CPCCCA2002 - Use carpentry tools and equipment

CPCCCA3002 - Carry out setting out

CPCCCA2011 - Handle carpentry materials

CPCCCA3001 - Carry out general demolition of minor building structures

CPCCCA3003 - Install flooring systems

CPCCCA3004 - Construct and erect wall frames

CPCCCA3005 - Construct ceiling frames

CPCCCA3006 - Erect roof trusses

CPCCCA3007 - Construct pitched roofs

CPCCCA3008 - Construct Eaves

CPCCCA3010 - Install windows and doors

CPCCCA3012 - Frame and fit wet area fixtures

CPCCCA3014 - Construct and install bulkheads

CPCCCA3016 - Construct, assemble and install timber external stairs

CPCCCA3017 - Install exterior cladding

CPCCCA3018 - Construct, erect and dismantle formwork for stairs and ramps

CPCCCA3024 - Install lining, panelling and moulding

CPCCCA3025 - Read and interpret plans, specifications and drawings for carpentry work

CPCCCA3027 - Set up, operate and maintain indirect action powder-actuated power tools

CPCCCA3028 - Erect and dismantle formwork for footings and slabs on ground

CPCCCM2002 - Carry out hand excavation

CPCCCM2006 - Apply basic levelling procedures

CPCCCM2008 - Erect and dismantle restricted height scaffolding

CPCCCM2012 - Work safely at heights

CPCCCM3005 - Calculate costs of construction work

CPCCCO2013 - Carry out concreting to simple forms

CPCCOM1012 - Work effectively and sustainably in the construction industry

CPCCOM1013 - Plan and organise work

CPCCOM1014 - Conduct workplace communication

CPCCOM1015 - Carry out measurements and calculations

CPCCOM3001 - Perform construction calculations to determine carpentry material requirements

CPCCOM3006 - Carry out levelling operations

CPCCWHS2001 - Apply WHS requirements, policies and procedures in the construction industry

CPCWHS3001 - Identify construction work hazards and select risk control strategies.
